Data & Reporting Tools: (Advanced MS Excel, MySQL, Power BI, Tableau, Power Query) |

Programming & Data Analysis: (Python, Pandas, NumPy, Matplotlib, C++ (Basic)) |

Business & Analytical Skills: (Data Cleaning, Data Validation, KPI Tracking, MIS Reporting, Dashboard Design, Trend Analysis, Business Insights, Data-Driven Recommendations)

CERTIFICATES

Data Science with AI – Internshala | 8-Week Training Program Certificates: IIT Parivartika & NSDC |

SQL (Basic & Intermediate) – HackerRank | Verified Certificate |

5-Star Badge, MySQL — HackerRank |

Power BI for Beginners - Simplilearn powered by Microsoft | Verified Ceritificate

PROJECTS

Customer Churn & Retention Analysis (RavenStack) , *Python, Power BI* 09/2026
- Cleaned and merged 5 raw data files (accounts, subscriptions, churn, usage, support) into a single reporting table using Python
- Built 3 Power BI dashboards tracking a 22% churn rate across plan tier, industry, country, and referral source
- Flagged high-risk customer segments and seasonal churn spikes to support retention reporting

Bank Marketing Funnel Analysis , *Python, Power BI, DAX* 09/2026
- Cleaned 45,000+ customer call records and built a 3-stage funnel (Contacted → Engaged → Converted) to track performance
- Created DAX measures and KPI cards (conversion rate, engagement rate) for an interactive 2-page reporting dashboard
- Analyzed call outcomes by month, channel, and customer segment to highlight where business reporting could improve decision-making

Online Retail Sales Analysis , *Power BI, Excel, DAX* 08/2026
- Cleaned and transformed raw retail transaction data using Power Query to prepare it for reliable reporting
- Built an interactive Power BI dashboard tracking $9.7M in sales, 26K orders and 12% YoY growth, with year, month and country filters
- Identified seasonal revenue trends and top-performing countries to support business planning decisions
