SUMMARY

B.Tech final-year student trained in Data Science with AI from Internshala. Skilled in Excel, MySQL, and Power BI, with experience in data cleaning, data modeling, and dashboard reporting. Delivered several end-to-end projects analyzing sales performance and customer churn using real-world datasets. Experienced in identifying business trends such as seasonal revenue patterns and high-churn customer segments. Seeking an entry-level MIS Executive role to apply data analysis and reporting skills.

PROFESSIONAL EXPERIENCE

Data Science with AI Trainee, *Internshala Trainings*
- Completed an intensive 8-week training in data cleaning, visualization, and reporting using Excel, MySQL, Python, and Power BI
- Delivered 3 end-to-end analytics projects from raw data to dashboard, covering sales, churn, and funnel analysis
- Practiced presenting data-driven findings in a business-reporting format

EDUCATION

Arya Institute of Engineering Technology and Management, Jaipur 07/2023 – Present | Jaipur
Bachelor of Technology (B.Tech) – Computer Science Engineering

SKILLS

Data & Reporting Tools: (Advanced MS Excel, MySQL, Power BI, Power Query) | **Programming:** (Python (Pandas, NumPy, Matplotlib), C++ (basic)) | **Core Competencies:** (Data Cleaning, MIS Reporting, Dashboard Design, KPI Tracking, Data Validation)

CERTIFICATES

SQL (Basic & Intermediate) – HackerRank | Verified Certificate |
Power BI for Beginners - Simplilearn powered by Microsoft | Verified Ceritificate |
Data Science with AI – Internshala | 8-Week Training Program Certificates: IIT Parivartika & NSDC |
5-Star Badge, MySQL — HackerRank

PROJECTS

Customer Churn & Retention Analysis (RavenStack), *Python, MySQL, Power BI* 09/2026 – 09/2026
- Cleaned and merged 5 raw data files (accounts, subscriptions, churn, usage, support) into a single reporting table using Python
- Built 3 Power BI dashboards tracking a 22% churn rate across plan tier, industry, country, and referral source
- Flagged high-risk customer segments and seasonal churn spikes to support retention reporting

Online Retail Sales Analysis, *Power BI, Excel, DAX* 08/2026 – 08/2026
- Cleaned and transformed raw retail transaction data using Power Query, preparing it for reliable reporting
- Built an interactive Power BI dashboard tracking $9.7M in sales, 26K orders, and 12% YoY growth with year/month/country filters
- Identified seasonal revenue trends and top-performing countries to support business planning decisions

Bank Marketing Funnel Analysis, *Python, Power BI, DAX* 09/2026 – 09/2026
- Cleaned 45,000+ customer call records and built a 3-stage funnel (Contacted → Engaged → Converted) to track performance
- Created DAX measures and KPI cards (conversion rate, engagement rate) for an interactive 2-page reporting dashboard
- Analyzed call outcomes by month, channel, and customer segment to highlight where business reporting could improve decision-making
